Detailed Actions

Allowable Subject Matter

1. Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

2. Independent Claims 1 and 8 are allowable because none of the prior art of record disclose an electromagnetic interference suppression device for suppressing common mode and differential mode noises comprising a case with plurality of conductive pillars with a differential noise reduction element fixed to each of them, wherein each of the pillars is penetrating through the case to form a connection pad through which the device is mounted onto a PCB in combination with the other claim limitations.
3. Claims 2-7 and 9-10 are dependent on allowable claims and therefore allowable.

Brief description of related prior art

Townsend et al. (5,736,910) disclosed a Modular Jack Connector With Flexible Laminate Capacitor Mounted On A Circuit Board. Townsend et al. disclosed an assembly that uses differential noise reduction element or common mode noise reduction element, but not both type together.

Art Unit: 2836

Imschweiler et al. (6,428,361) disclosed a Surface Mountable Connector Assembly Including A Printed Circuit Board. The device provides modular connector assemblies including a printed circuit board capable magnetic filtering components mounted thereon. Imschweiler et al. does not disclose at least one differential noise reduction element fixed to conductive pillar and electrically connected to common mode noise reduction element.

Oi (6,525,638) disclosed a Choke Coil. The device includes a differential noise reduction element and a common mode noise reduction element, but does not disclose at least one differential noise reduction element fixed to a conductive pillar and electrically connected to common mode noise reduction element, wherein the conductive pillar with a differential noise reduction element fixed to conductive pillar forms a connection pad for connection to PCB.

Comments to reasons for allowance

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
